

SUMMARY	Computer Scientist working in Machine Learning with 8+ years research experience seeking full-time opportunities
INTERESTS	Machine Learning, Deep Learning, Natural Language Processing, Social Media Mining, Scientific Computing
EDUCATION	Northwestern University , Evanston, Illinois USA Jul '19 (expected) Sep '14 Ph.D. Candidate, Computer Science Master of Science, Computer Science Birla Institute of Technology & Science , Pilani, Rajasthan India May '12 Dec '09 Master of Engineering (with Honors), Software Systems Bachelor of Engineering (with Honors), Chemical Engineering
PROGRAMMING SKILLS	Proficient: Python, Keras, Scikit-Learn, NLTK, Gensim, Tensorflow, Pandas, Selenium Familiar: OpenCV, XGBoost, Spacy, PySpark, PyTorch, Theano, R, MATLAB, C, C++, Java, LAMP, SQL, weka, HTML/CSS
PROFESSIONAL EXPERIENCE	<i>Data Science Intern</i> , Northwestern Mutual , Milwaukee, Wisconsin Jun - Aug '18 <ul style="list-style-type: none">• Developed distributed OCR algorithms for detecting responses from scanned questionnaires• Designed a noise reduction algorithm to de-noise scanned and photocopied questionnaires <i>Data Science Consultant</i> , EDT Jun '17 - Jan '18 <ul style="list-style-type: none">• Designed models for profanity detection from company-wide email databases <i>Data Science Consultant</i> , SnuvikTech Jan '18 - May '18 <ul style="list-style-type: none">• Developed time-series modeling for inventory data for computer accessories <i>Research Intern</i> , Boeing Cybersecurity (Narus) , Sunnyvale, California Jun - Sep '13 <ul style="list-style-type: none">• Generated synthetic user profiles with different demographic and interest features for analyzing ads across profiles• Developed a machine learning model for predicting user demographics and interests from ads
RESEARCH PROJECTS	<i>Research Assistant</i> , Northwestern University , Evanston, Illinois Sep '12 - <ul style="list-style-type: none">• Chemical Property Prediction using Molecular Fingerprints (Tensorflow, Scikit Learn)<ul style="list-style-type: none">◊ Developed a multi-input input neural network architecture by merging different molecular representations (SMILES and fingerprints) for predicting chemical properties and reduced the mean absolute error by half compared to state-of-the-art architectures (CheMixNet architecture)◊ Designed Bagged Ensemble models for predicting power conversion efficiency of solar cells using chemical fingerprints, and achieved mean absolute percentage error between 1.5-2 %◊ Developed a transfer learning solution to predict solar cell properties with mean absolute percentage error below 1 % (SINet architecture)• Developed Predictive Model for Additive Manufacturing (Tensorflow, Keras)<ul style="list-style-type: none">◊ Created time series models for temporal analysis of temperature and heat flux data◊ Investigated Recurrent Neural Network models to predict point-wise temperature information for accelerating additive manufacturing simulations◊ Developed an iterative real-time predictive model using bagged decision trees• Ensemble Learning-based Guided Optimization for Aircraft Design (MATLAB, Python)<ul style="list-style-type: none">◊ Created intelligent sampling algorithms to explore the constrained search space for candidate microstructures◊ Developed Feature Ranking-based Technique for Search Space Reduction of Constrained Non-Convex Optimization◊ Achieved 100x more solutions compared to state-of-the-art methods that can accelerate the design-to-experiment life-cycle• Classification of Anonymous Posts using Recurrent Neural Networks (Keras, Scikit Learn)<ul style="list-style-type: none">◊ Developed customized vector model using crowd-sourced (Urban Dictionary) & psycho-lingual (LIWC) dictionaries◊ Explored Word2vec, GloVe and FastText embedding schemes (Gensim)◊ Attained prediction accuracy of 79.8 % and 78.1 % using ensemble and LSTM models respectively

FELLOWSHIPS

McCormick Dean's Commendation Fellowship '18 Spring
 Predictive Science and Engineering Design Fellowship '16-'17
 Segal Design Fellowship '14-'15
 Walter P. Murphy Fellowship '12-'13

SELECTED TEACHING
AND LEADERSHIP

Teaching Assistant & Guest Lecturer, Northwestern University Jan '14-

- ◇ Prepared and delivered weekly lectures for 20-50 students
- ◇ Supervised course projects and provided subject matter expertise
- ◇ Courses: Social Media Mining, Data Structures, Introduction to Programming (Python)

President/Vice-President/Treasurer, Northwestern Toastmasters Sep '15 - May '18

- ◇ Lead the Northwestern chapter of Toastmasters with over 30 graduate students, post doctoral fellows from 10 different departments
- ◇ Organized 1.5 hour weekly meetings to improve student public speaking skills
- ◇ Co-wrote proposal to The Graduate school and obtained 3000 USD to fund programming

Co-Facilitator, Northwestern Dialogue Group Oct '16 - Sep '17

- ◇ Facilitated dialogue in safe spaces for cultural exchange across international and domestic students
- ◇ Organized social events to enhance group cohesion

Organizer & Instructor, Machine Learning Workshop, Northwestern University Jul '16

- ◇ Delivered and prepared talk attended by 70 graduate students and professors
- ◇ Designed coding assignments for the participants
